

# NOAO/CTIO DECam Operations Organization Chart

(DocDB 6596 – version 3 – C. Smith – 9 Aug 2012 )

## Overview

This chart shows the organization, including lines of reporting and responsibilities, for the operations of the Dark Energy Camera (DECam) as one of the facility instruments at Cerro Tololo Inter-American Observatory (CTIO). The NOAO DECam Operations team is led by Alistair Walker as DECam Instrument Scientist, and includes contributions from DECam support scientists, CTIO Telescope Operations group, Blanco Telescope Scientist, NOAO South Engineering and Technical Services (ETS) group, and the DECam Community Pipeline (CP) operations team. The CP Ops team is in the NOAO System Science Center (NSSC) division of NOAO. **The details of the roles, and how this organizational structure supports operations, is provided in the DECam Systems Operations and Maintenance Plan (DocDB 6274).**
